Domain in:
Javascript/Typescript/Java/Python/Apex/C#/Go, Selenium/Appium/WebdriverIO/Cypress/Playwright, Mocha/Chai/Junit/TestNG, Jmeter/K6, AWS S3/DeviceFarm/Cloudwatch/FIS, Pact/RestAssured/Axios, StrikeMutator, ETLDesign/Spark/PySpark, Postman/Newman.

Languages:
Portuguese (native), Spanish (native), English (intermediate B1+) and French (basic)

Professional history

Deuna, New York City, United States
Senior QA Automation Engineer (100% Remote) Oct. 2023 – Set. 2025
- Development and maintenance of automated frameworks with Playwright for API and Web testing, ensuring the delivery of high-quality software for more than 80 PSPs (payment service providers).
- Training for development teams on best practices for test automation, ETL design, and report interpretation with PySpark.
- Implemented AI-Driven testing components to improve coverage, optimize test case generation, and automate configuration processes.
- Developed AWS cloud-based test solutions, improving the scalability and reliability of automated test execution.
- Expanded technical expertise by learning and applying Typescript, Go, and Python to develop more robust test automation scripts.

TUL, Bogota, Colombia
Senior QA Automation Engineer (100% Remote) May 2022 – Jul 2023
- Working with Java, Javascript and new programming languages: Kotlin, Dart (Flutter).
- BDD implementation, contract testing, API testing, mobile and web testing.
- Training and supervision of the QA team.
- Implementation of frameworks with Karate DSL, Selenium, WebdriverIO, Cypress and Pact, all in CI/CD processes with Kafka and AWS with their respective tools.

B89, Lima, Peru
Senior Software Quality Engineer (100% Remote) Mar. 2020 – Jan. 2022
- Development of the QA team for the first Peruvian neobank. I interviewed more than 30 candidates for different QA positions.
- I tested the B89 application MVP, as well as the backoffice modules and components.
- Led the transformation of the backoffice planning process. Automated API testing for the backoffice and frontend testing: Cypress and WebDriverIO. I tested B89's blockchain technology and remittance software (JMeter and PactJs).

Avantica Technologies, Lima, Peru
Senior QA Automation Engineer - Jan. 2019 – Mar. 2020
- Led the transformation to extract data from AS400 Scotiabank Canada and Peru.
- I tested Scotiabank's most important projects: API Identity and later Biometric Authentication (POK). I also served as a key contributor on other strategic Scotiabank projects.
- I tested the performance and automated the API test scenarios using a more organized approach.

Everis, Lima, Peru
QA Lead and QA Automation Lead - May 2018 – Dec. 2018
- I led a Functional QA team in the BCP Bank - Salesforce project. Mentoring in web testing, web services and APIs. I designed and developed automated frameworks and test suites for the BCP Bank project. I collaborated with our channel partners to resolve integration issues. I led the QA Automation team for the BCP Bank - Salesforce project.
- I led performance testing projects for Interbank. Coordinated Interbank web and Interbank App testing.

Choucair Testing, Lima, Peru
QA Automation Engineer - Oct. 2016 – Apr. 2018
- I automated projects from Interbank, Banbif and Credicorp Bank in Selenium Webdriver (Java), Silktest and VB.Net, IBM AS/400 with VBscript, Web Services with SOAPUI-NG.

IATECAM/NCR, Manaus, Brazil
Software Test Analyst Ssr - Feb. 2015 – Jul. 2016
- I tested ATMs, PalmVein Technologies for ATMs, industrial robots. I automated test scripts for Bradesco Bank ATMs. I tested the SEAGATE "Automatic Fix" and "Repair" of the hard drive software (SeaTool).

FUCAPI, Manaus, Brazil
QA Architect - Jan. 2010 – Nov. 2012
- I tested the components of the National Market Project of the Superintendence of the Manaus Free Trade Zone (ZFM) - SUFRAMA (Brazil). I tested PIN generation for electronic invoice tax systems, goods receipt and data rectification systems, as well as document analysis recognition and coordination systems. I applied automated tests and performance of each module delivered.

Education
ESAN University - Graduate School of Business (Lima – Peru), International Diploma in Project Management - Feb. 2018 – Aug. 2018
Universidade Paulista (Manaus – Brazil), Computer Engineering - Jan. 2009 – Jul. 2014
