PROFESSIONAL SUMMARY

Senior QA Automation Engineer and SDET with 16 years of experience in Software Quality Assurance, Test Architecture, and Project Management. Proven track record designing and implementing scalable automation frameworks from scratch, establishing CI/CD quality gates, and leading QA teams across fintech, e-commerce, and banking sectors. Trilingual professional (Portuguese, Spanish, English) with international experience across six countries: Brazil, Panama, Peru, Colombia, Mexico (Remote), United States (Remote)

CORE COMPETENCIES

Domain	Technologies
Test Automation	Playwright (TypeScript), Cypress, WebdriverIO, Selenium WebDriver, Appium, AccelQ, Karate DSL, Robot Framework
Languages	TypeScript, JavaScript, Java, Kotlin, Python, Go, C#, Dart, Ruby, Apex, .Net(C#)
Testing Types	E2E, API, Mobile, Performance, Security, Contract, Mutation, Visual, Chaos Engineering, AI-Driven
API & Services	REST, gRPC, GraphQL, SOAP, Postman/Newman, RestAssured, Pact
Performance	JMeter, K6, IBM Rational Performance Tester
CI/CD & Cloud	GitHub Actions, Jenkins, GitLab CI, Bitbucket Pipelines, AWS (S3, CloudWatch, Device Farm, ECS/EC2, FIS, Secrets Manager), Docker, Azure DevOps.
Data	PySpark, Spark, ETL Design, SQL, Kafka
Methodologies	BDD, TDD, Shift-Left, Event Storming, Agile/Scrum

PROFESSIONAL EXPERIENCE

OLACCLICK — Lima, Peru

SDET QA Automation Engineer (AI/ML) | February 2026 – June 2026

- Architected a scalable test automation framework from scratch using Playwright with TypeScript, migrating the organization from 100% manual testing to automated regression coverage supporting Nuxt, Node.js, and Laravel architectures.
 - Integrated the automation framework into Bitbucket Pipelines using Infrastructure as Code practices, enabling immediate feedback cycles for development teams.
 - Defined and executed a “QA Decision Matrix” in collaboration with Product Leads, prioritizing automation of critical flows (Happy Paths) and API integrations while maintaining efficient balance with exploratory testing.
 - Established the Staging environment requirements, eliminating exclusive dependency on the development environment and improving regression test reliability.
 - Developed the “QA Playbook” and documentation standards in Confluence/Jira, elevating bug report quality, tracking metrics, and technical collaboration.
-

UPWORK — San Francisco, United States

Software Development Engineer in Test (SDET) | December 2025 – February 2026

- Delivered freelance automation solutions for multiple clients, building E2E test frameworks with Playwright and Cypress.
 - Designed API automation and integration testing for microservices architectures.
 - Provided performance testing and optimization recommendations using K6.
-

DEUNA — New York City, United States

Senior QA Automation Engineer | October 2023 – October 2025

- Developed and maintained automated frameworks with Playwright for API and Web testing, ensuring high-quality delivery for 80+ payment service providers (PSPs).
 - Trained development teams on test automation best practices, ETL design, and report interpretation with PySpark.
 - Implemented AI-Driven testing components to improve coverage, optimize test case generation, and automate configuration processes.
 - Developed AWS cloud-based test solutions, improving scalability and reliability of automated test execution.
 - Expanded technical expertise by applying TypeScript, Go, and Python for robust test automation scripts.
-

TUL — Bogota, Colombia

Senior QA Automation Engineer | May 2022 – July 2023

- Implemented BDD, contract testing (Pact), API testing, and mobile/web testing using Java, JavaScript, Kotlin, and Dart (Flutter).
- Trained and supervised the QA team on automation best practices.

- Built frameworks with Karate DSL, Selenium, WebDriverIO, Cypress, and Pact, integrated into CI/CD pipelines with Kafka and AWS.
-

B89 — Lima, Peru

Senior Software Quality Engineer | March 2020 – January 2022

- Built the QA team for Peru's first neobank, interviewing 30+ candidates for various QA positions.
 - Tested the B89 application MVP, backoffice modules, and components.
 - Led backoffice planning transformation; automated API testing and frontend testing with Cypress and WebDriverIO.
 - Tested blockchain technology and remittance software using JMeter and PactJs.
-

Avantica Technologies — Lima, Peru

Senior QA Automation Engineer | January 2019 – March 2020

- Led data extraction transformation from AS400 for Scotiabank Canada and Peru.
 - Tested critical projects: API Identity and Biometric Authentication (POK).
 - Conducted performance testing and automated API test scenarios.
-

Everis — Lima, Peru

QA Lead and QA Automation Lead | May 2018 – December 2018

- Led Functional QA and Automation teams for BCP Bank – Salesforce project.
 - Designed and developed automated frameworks and test suites.
 - Led performance testing projects for Interbank; coordinated web and app testing.
-

Choucair Testing — Lima, Peru

QA Automation Engineer | October 2016 – April 2018

- Automated projects for Interbank, Banbif, and Credicorp Bank using Selenium WebDriver (Java), SilkTest, VB.Net, IBM AS/400, and SOAPUI.
-

IATECAM / NCR Corporation — Manaus, Brazil

Software Test Analyst | February 2015 – July 2016

- Tested ATMs, PalmVein biometric technologies, and industrial robots.
- Automated test scripts for Bradesco Bank ATMs.

- Tested SEAGATE hard drive diagnostic software (SeaTool).
-

FUCAPI — Manaus, Brazil

QA Architect | January 2010 – November 2012

- Tested components of the National Market Project for SUFRAMA (Manaus Free Trade Zone).
 - Tested PIN generation for electronic invoice tax systems and data rectification systems.
 - Applied automated tests and performance testing for each delivered module.
-

EDUCATION

ESAN University – Graduate School of Business | Lima, Peru
International Diploma in Project Management — 2018

Universidade Paulista – UNIP | Manaus, Brazil
Bachelor of Computer Engineering — 2009–2014

CERTIFICATIONS

- IBM Certified Specialist — Rational AppScan, Standard Edition
 - IBM Certified Solution Designer — Rational Performance Tester
 - IBM Certified Solution Designer — RUP V7.0
 - ISTQB Certified Tester Foundation Level (CTFL 4.0)
 - ISTQB Advanced Test Automation Engineer 2025
 - CELPE-BRAS — Advanced Portuguese Proficiency Certificate
 - Playwright: Web Automation Testing From Zero to Hero
 - Playwright: Test Automation Framework Training
 - AI-Driven Cybersecurity
 - Docker DevOps
 - TypeScript: The Complete Developer's Guide
 - Principles of Security Coding
 - Design Patterns JavaScript and TypeScript
